Never before was starting your own company so simple, and so quick as it is now. As part of our offer we had prepared services enabling you to reduce the time required to start your own company even to a day, with minimal formalities. All it takes is a visit with the notary at a selected, appropriate time, and the signing of prepared documents. Our advisers will take care of the rest.

Depending on the package of services, the completion time can even be one day. The table below presents a comparison of the options, and their detailed descriptions can be found under the tabs on the left side (side menu).
